STERN PODIA 

STERN PODIA 

*Please note that the images present in this catalogue are for illustration and promotional purposes only. Actual product and design may slightly vary due to product enhancement, different device screen settings, the lighting in the installation location, slight differences in product finishes over time and other factors.*

*SMD Stern Podia will not accept responsibility for any color or design differences that are not factory faults.*

Atlas is available in lefthanded configuration  
without any extra charge

**Steel chassis** with highly resistant **covers in ABS+PMMA**, mounted on steel base with 4 rotary castors and arranged to accommodate the **chest of drawers**. High resistance stainless steel fasteners.

## Worktop in Corian BTS

Instruments with **suspended hoses**.

Instrument holder comprising the devices, the functions and the controls of electric, pneumatic and hydraulic circuits.

Pressurized container of spray water. Air filter with automatic drain of condensation.

**Control panel with push buttons** to: select the maximum speed of micro motor and turbine; enable the operation of the spray; for the sequential and timer-controlled function of the spray, enable the optical fibers; invert the rotational direction of micro motor (with acoustic signal) and activate a further inlet.

**LCD display** for the visualization of: activation of the dynamic instrument; maximum selected speed, working speed of the micromotor and percentage of power air used for the turbine.

**Safety system** that prevents the simultaneous activation of the spray/suction functions.

**Wireless control of the combined Stern-Podia chair movements.**

Air intake: 5bar, 50 l/min.

Dimensions on floor: 50x78 cm - Operational dimensions: 79 x 64 x 92 (h) cm

Weight: 80 kg

# OPERATING UNITS:

STERN PODIA

Class IIa Medical Device

Swiss and Italian  
electronic boards

Internal Transformer device  
certified as medical

Worktop in  
Corian BTS

Reducers to adjust both air  
and spray flow-rate

Structure made of steel  
treated against oxidation

ABS-PMMA casings

Wheels to guarantee  
easy movements

Chip Blower: air flux via direct pressure  
of the pedal lever (on SL / AS pedals)

<b>DENEb</b>	<b>LUNAR</b>	<b>ATLAS</b>	<b>QUASAR</b>
<p><b>Deneb:</b> just a few movements to change from left-handed to right-handed users and vice versa</p>

## ON/OFF Pedal

Activation of the instruments at the pre-set speed

## SL and AS MULTIFUNCTIONAL PEDALS

allow to progressively work until the pre-set maximum speed

### SL multifunctional pedal

Progressive increase of the speed of both Micromotor and Turbine

### Horizontal shifting on "A" lever:

activation and adjustment of dynamic instruments (Micromotor und Turbine) rotation speed.

### AS multifunctional pedal

Progressive increase of the micromotor speed  
The turbine is activated to the maximum speed **only**

### Horizontal shifting on "A" lever:

Turbine activation.  
Action and adjustment of Micromotor rotation speed.

### Vertical shifting on "A" lever when dynamic instruments are not active:

activation of dynamic instruments chip-blower function.

### Vertical shifting on lever "A" when dynamic instruments are active:

spray activation both in continuous and sequential way

## SMD ADDITIONAL SECURITY SYSTEMS:

- **Hydro Stop:** air flux automatically activated any time the micromotor stops working to avoid cross contaminations
- Impossibility to work with spray and suction at the same time
- Impossibility to work if compressor is not connected to the unit
- Impossibility to work if the bottle containing water is not pressurized
- Activation of only one instrument at a time

### WITHOUT HANDLES

Drawers mounted on "push" slides that allow the opening of the drawer with a slight pressure on the front panel.

### WHITE HANDLES

Drawers mounted on soft closing slides and equipped with a newly designed **aluminum handle painted in white**.

### COLORED HANDLES

Drawers mounted on soft closing slides and equipped with a new design aluminum handle **painted in a color of your choice from Stern Podia selection**.

## 3 NEW TYPES OF DRAWERS

# Instruments at work ...

## MICROMOTORS

indicated for all abrasion treatments on nails laminas and skin thickness

Application for Electric micro motor BIEN AIR MX-2 Brush-less, 40Krpm, with Optical Fibres LED Technology, integrated spray, hidrostop device, chip-blower (HAND PIECE NOT INCLUDED).

Application for Electric micro motor BIEN AIR MX- i Brush-less 40Krpm, self-ventilated (HAND PIECE NOT INCLUDED).

Application for Electric micro motor BIEN AIR MC40, 40Krpm, integrated spray, hidrostop device, chip-blower (HAND PIECE NOT INCLUDED).

Pneumatic micromotor Bien-Air Aquilon with Midwest coupling, integrated spray (HAND PIECE NOT INCLUDED).

## HAND-PIECES

STERN PODIA Hand-piece QUARK, optical fibers with LED technology, integrated spray

Hand-piece Bien Air PM1:1 Micro Series with integrated spray

STERN PODIA Hand-piece QUARK, integrated spray

<b>Bien Air PM 1:1 Micro Series</b>				
<b>Stern Podia Quark LED technology</b>				
<b>Stern Podia Quark</b>				

“Straight” 3-way syringe with air, water, and spray

Integrated suction duct with stop device for spring tension arm and coaxial nozzle to be applied to the micro motor. Suction effect prolonged and timer-controlled. - indicated to work with dry or mixed technique, suitable for all micromotors in the Price List

## TURBINE

indicated for all abrasion treatments on nails corners and skin thickness.

Arrangement for turbine with Midwest coupling, optical fibres lightening system, spray, chip-blower, hidrostop device (hand piece not included).

Arrangement necessary for the functioning of the turbine

Turbine TKD MIKRA R model, Midwest connection for rounded adaptor

Rounded Adaptor Midwest connection

Turbine TKD BRAVIA LB model, with LED light, Midwest connection for rounded adaptor

Rounded Adaptor Midwest connection

### ASPI-COMP Suction motor

The suction motor is housed in a proper sound-proof steel cabinet, with silencer, switch and protection fuses.

Suction filter included  
Sucked air: 60 m<sup>3</sup>/h.

### ASPI-COMP Suction motor with suction arm

### ASPI-COMP integrated in the operating unit

(not available for Quasar and Exagono models)

# Operating units and group accessories

### **Genesis 24 air compressor**

Oil-less 2-cylinders motor with soundproofing case membrane dryer, air-condensation filter 0,01micron

- Power 1,1KW
- Air delivery 120 l/min
- Tank 24 liter
- Noise 50 dB(A)
- Dimensions 530x500x800
- Weight 67 Kg

### **Arm for operating lights**

Available in three different heights:

- 530 mm
- 340 mm
- 220 mm

### **SUNLED led lamp**

7 led x 3 Watts (used 70%)

Color temperature 6.300° K

Power supply 24 Volts

15 watts total

Double articulated and compensated arm

# Operating units and group accessories

**Tray for  
instrument  
holder**

**Inserts for drawers**

**Additional chest of drawer**

Operating units and group accessories
